

Local News.

Write it "1884".
Happy New Year!
The Christmas boom.
Our first snow came with the new year.
Three-fourths of an inch of snow this week.
Best two-foot rule. Don't wear tight shoes.
Look out for new time card on Frisco Railroad.
Rev. Chas. Bluejacket was in town this week.
The week of prayer will be observed in Vinita next week.
W. C. Patton & Co. expect to occupy their new building next month.
Wood or coal will be taken for subscription to the CHERRYMAN.
More building is going on in Vinita than a winter has ever before.
S. A. Bluejacket has built a new residence, and is cozy fixed again.
G. W. Green shipped two car loads of hogs this week to Little, Jarvis & Co.
Pretty cold weather this week. Thermometer cutting zero some part of the time.
Worcester Academy begins its winter term Dec. 24, with prospects better than ever.
The teachers of Worcester Academy arrived Thursday noon, and began work at once.
The dying old year needed a shroud, so the snow began to fall a few hours before his departure.
The Congressional Church is to be gaped and redited on the inside in a few weeks. It will be beauty.
Now at this day come blue noses, and the ear ache, and cold feet, and all the winter ills that flesh is heir to.
G. H. Lewis is a man of remarkable enterprise. He is building up a large business, one of the best in the Territory.
If you haven't the money with which to subscribe for the CHERRYMAN, bring on a big load of wood or \$1.50 worth of coal.
Funds are nearly all secured for the erection of another building for Worcester Academy. It will be four stories high, with Mansard roof.
Now is the time for resolutions. A man who will begin a new year without any resolutions and higher resolves, would be in bad shape if he happened to die suddenly.
W. L. Trotter has opened a first-class lumberyard in Vinita. He has a very complete assortment of everything needed in building, and is a straight man to deal with. Read his ad.
Mr. and Mrs. Parsons buried their only boy last Saturday. While the rest of us have been celebrating the holidays with feasting and joy, they have been called to pass through the deep waters.
Mayor Frost and council would confer a favor on the public, and perhaps prevent personal injury by accident, if they would give some attention to improvements on the sidewalk from the Frisco house west.
A fine stock piano has just been purchased for Worcester Academy, and will be on hand for the opening of the term. It will be the best toned piano in Vinita, but in a small, plain case.
Rev. J. W. Stragg and Mrs. Scroggs and their son Maurice returned home Saturday from their Eastern trip. They received a cordial welcome, and their friends were much gratified to observe evidences of their improved health.
Dan Jones, (white), was convicted of murder before the U. S. District Court at Ft. Smith on the 22d of December. He killed Bill Jones, a cousin, while traveling with his family in the Chetopa train, Aug. 6th, 1879.
About 25 persons attended the watch meeting at the Congregational church to watch the old year out. There were three meetings during the evening. The subject of the first was "Watch and Pray," of the second, "Prepare," and of the third "Redeeming the Time."
If M. Frazer & Co. the druggists, do not succeed, it is not for want of faith. They have such faith in Dr. Bosanck's cough and lung cure as a remedy for coughs, colds, consumption and lung affections that they will give a bottle free to each and every one who is in need of a medicine of this kind.
A correspondent writes a glowing account of the holiday entertainment given by Mr. J. V. Cratchfield and lady at Oatons, and D. L. Deany at Chetopa. The tables were covered with the choicest delicacies to be obtained, while the dancing which succeeded was indulged in until a late hour. Old fashioned hospitality was displayed by host and hostess and made both occasions peculiarly pleasant to those who were so fortunate as to be present.
The following schools in the Nation have been suspended in consequence of not making the average required by law: Double Spring, Flint Dist.; Bryn Chapel, Silver Lake and Belle View in Coconawacawee Dist.; Neosho River, Dist. District. Petitions for relocation of the above-named schools will be in order. Petitions should set forth number of pupils, names of patrons, condition of house—all of which should be attested by sworn statement of at least one responsible person.
Messrs. J. H. Long, of Flemington, Pa., and J. C. F. Ryer, of Randolph, Ohio, left Sunday evening last for Oswego, Kan., and thence to Memphis and New Orleans, after spending two or three days in Vinita. These gentlemen have been visiting Carthage, Mo., and are traveling for pleasure and for the purpose of seeing different sections of the country. Mr. Long is a retired merchant and Mr. Ryer his nephew, a young lawyer, who has just completed his course of reading after graduating at the College of New Jersey. It is probable that he may locate at Carthage Mo. and if he should, judging from his thorough preparation for his chosen profession, and his personal character, as evidenced by ex-Gov. Pollock of Pa., and others, will soon take rank among the most distinguished attorneys in the Southwest.

Good deal of sickness.
Travel is light on the railroads now.
W. E. Hallsell went out to his ranch Wednesday.
We hope to add several improvements to the CHERRYMAN soon.
C. M. McClellan, one of our cattle princes, was in town Saturday.
The thermometer got within one degree of zero Wednesday morning.
L. B. Bell will take his family with him to Washington this winter.
There has been so much inquiry for stock in the CHERRYMAN, that in a few weeks the stockholders will place a small amount of stock on the market.
We call attention to the new advertisement of Allen Bros. They have just opened a grocery store in Vinita and are starting out first-rate. They buy furs, game and produce.
The CHERRYMAN is now waiting to hear some one or more of the business houses of Vinita make the proposition to donate the profits on all goods sold on the extra day in 1884 for some charitable purpose.
News comes that a pair of woolen socks 2000 years old have just been discovered in Egypt. Our socks are getting pretty old, but if our subscribers don't pay up, we will have to wear them longer than that, we fear.
The combined kit of blacksmith tools at Raymond's, consisting of vice, anvil, drill, clamps, etc., although too large for a watch chain and too small for a machine shop, are just the thing to do your own horse shoeing and plow sharpening, etc.
New Year passed off pleasantly. The postoffice was closed, and business largely suspended most of the day. A handsome turkey passed in his checks at G. W. Green's, and many of our citizens are enough to give them a good start for 1884.
Miss Eliza Jane Ross of Park Hill, C. N., whose life has been one of self-denial, and devoted to the instruction of the children of the country and the welfare of others, is spending the holidays with her brother, the senior editor of this paper, and his family.
The other day, as a young couple were sitting in the depot, billing and cooing, to the great amusement of all beholders, some one remarked, "I'll bet they're a runaway couple." "No, sir," spoke up the bride's father, who was in the crowd, "they've been married two months." The honeymoon does last more than one week sometimes.
Fierce City, Mo., had a fire, New Year's Eve, which destroyed a block of buildings, including the kitchen and some of the attachments of the Decatur House, the largest hotel in the place. The wind did not happen to be high at the time, or it might have been more disastrous. The loss was not stated by our informant, but is thought to be mostly covered by insurance.
A literary and scientific circle is being started in Vinita. The course of study is four years, with written examinations once a month. Each member must read at least twenty minutes per day, and a diploma is given at the end of the course. Vinita ought to have two such societies, and we believe the success of this one will make others necessary. The number of members is limited.
The very cold weather with which the new year opened, should remind stock men that humanity and self-interest require them to give special care to all kinds of domestic stock. Feed, shelter and water, liberally and regularly provided for them, will prevent heavy losses by death later on in the season, and avert a large share of suffering among them. The merciful man should remember the dumb animals which contribute to his sustenance, to his comfort and to his wealth.
We are sorry to announce the sad intelligence that Miss Woodworth has been compelled by her health, physician and family to resign her position in Worcester Academy. It is a great, and we fear irreparable, loss to the school and to this community. She may find an easier lot elsewhere, but she will never be appreciated as she was here. Her short stay among us was a benediction long to be remembered. As Longfellow says of Evangeline: "When she had passed it was like the ceasing of exquisite music." So her removal will seem to be a very large circle of friends. Her loss is a real bereavement. When the CHERRYMAN wishes her all the happiness possible in this changing world, we but speak the heart of all who knew her in Vinita.
The following notice from Dr. W. R. Davis fully explains itself: "An informal meeting was held at the drug store of Dr. M. Frazer, on Dec. 23d, by the physicians of this city, which had for its object the establishment of a permanent organization to be known as the Vinita Medical Society. The main object of the society will be to impart and receive useful knowledge from the members, to encourage harmony and good feeling in the profession, and to establish consistent and uniform rates for services. All practitioners in good standing in the Cherokee Nation are cordially invited to co-operate with them to these ends. Due and timely notice of next regular meeting will be given in the CHERRYMAN, and special notices sent by the secretary to all those names are known, within a convenient radius. A large turnout is desired. Candidates will be balloted for at the next meeting."
The First Presbyterian Church.
The house of worship soon to be occupied by the Presbyterian congregation of this place is rapidly approaching completion, and it is expected, will be entirely finished within two weeks, thanks to the indefatigable exertions of the pastor, Rev. W. P. Haworth, and a number of our leading citizens, members of his congregation. The building is located at the corner of Thompson street and Illinois avenue, is a frame structure of ample dimensions, with a tower at the northeast corner. The external appearance is neat, quiet and chaste, while the arrangement of the interior is unique and convenient to a remarkable degree, furnished with fine regard to comfort and seating capacity.
The most noticeable feature in regard to this church is that, contrary to the usual custom, the principal entrance is at one corner of the building, the doors opening into a small vestibule, on one side of which is the stairway leading to the gallery. The vestibule doors open either way, and lead into the main auditorium, which is furnished with three rows of pews, the aisles running diagonally across the building, all so arranged that the occupants of any part of the room must necessarily face the reading desk. In the southwest corner of the auditorium is the reading desk, the platform of which is semi-circular, and raised about two feet from the general floor level. Facing the platform, and running around three sides of the room with a circular sweep, is a gallery with a seating capacity of about 100 persons, the floor of which has a pitch of about eighteen inches, thus securing to those occupying back seats a full view of the speaker on the platform.
The hall of worship is 31ft. square, with an arched ceiling 22 feet in height. The main floor is arranged to comfortably seat 200 persons, and is well lighted by eight large windows of imitation stained glass, which tone and soften the light. The alcove in which the reading desk stands is merely in its way, and possesses peculiar acoustic properties on account of the angles immediately behind and above the speaker's head.
An elegant chandelier with six burners depends from the middle of the ceiling, and two prismatic and elaborately wrought hanging lamps are suspended immediately above the circular verge of the platform. The alcove is supplied with two bracket lamps, while the gallery is lighted by four powerful reflecting burners. With these facilities, the illumination for evening services will be almost perfect.
Taking it all in all Vinita can congratulate herself upon possessing the most handsome, convenient and finely finished church edifice in the Nation, for which they are indebted to a few painstaking and energetic members of the Presbyterian denomination, to whom be all due honor.
The plan for the building was furnished by Rev. W. P. Haworth. The woodwork was done under contract by our fellow-citizen, Darius E. Ward, who justly ranks as the most finished workman in the Territory. The plastering was done by Mr. Sam Hawkins, and the painting by Mr. F. A. Luce.
Rev. W. P. Haworth will hold the first service at the new Presbyterian church next Sabbath at 11 A. M.
Nat. Skinner received six car loads of young cattle from Texas yesterday morning, out of a shipment of seven cars—one being ditched near logs in Texas.
A SCENE OF PILES.—The first symptom of piles is an intense itching at night after getting warm. This unpleasant sensation is immediately relieved by an application of Dr. Bosanck's Pile Remedy. Piles in all its forms, Itch, Salt Rheum and Ringworm can be permanently cured by the use of this great remedy. Price 50 cents. Manufactured by Dr. Bosanck Medicine Co., Chicago, O. Sold by M. Frazer & Co.
For Washington.
Espaiche, Principal Chief, Col. Saml. Chicote, ex-Principal Chief, David Hodges and J. T. Callahan of the Creek Nation, passed north on the noon train of the Missouri Pacific Railway, the 2d inst., on their way to Washington, D. C., to look after the interests of their people before Congress and the Executive branches of the Government.
Espaiche, Chicote, David Hodges and Geo. W. Grayson, who is retired, were appointed delegates to Washington several weeks ago. Since then Espaiche has been declared Principal Chief by the Creek Council, and inducted into office, with Coweta Micco as Assistant, and now acting Chief in the absence of his principal. We learned from one of the party that, as they were leaving Muskogee, they were notified that Col. Benedict, U. S. Indian Inspector, had arrived there under instructions from the Department of the Interior to investigate the circumstances connected with the rival claims to the Chieftaincy, between "Espaiche and J. W. Perryman. But that Espaiche did not deem it necessary to halt on his way to Washington on that account, as it concerned a question belonging exclusively to the Creek people, and by whom it had already been determined, since he was recognized as Principal Chief, had peaceable possession of the capital at Okmulgee; and of the Executive Department of their government, and behind these the cordial support of more than two-thirds of the people of the Creek Nation.
Whether Inspector Benedict and his associates, Agents Tufts and Townsend, as reported in press dispatches, will coincide in this view of the matter, was unknown, but it is supposed that Col. Perryman and his supporters will proceed *ex parte* with their case, and endeavor to make such showing as will induce the department to interfere and recognize him as Principal Chief.
Col. Chicote and Espaiche are both historic personages among the Creeks, and deservedly command the respect and confidence of their people to as large an extent as any others in the Creek Nation. David Hodges, George W. Grayson and J. T. Callahan, also, are very well known at home and abroad as gentlemen of intelligence and standing, and taken as a whole, our neighbors will have all their interests fairly represented and cared for in Washington. C. H. Taylor, Esq., of the Cherokee Nation, accompanies the delegation to Washington, in the capacity, we infer, of an adviser.
Everybody knows that G. W. Green's is a good place to trade. He is now giving the people of Chelsea the privilege of a branch store. Under the management of Mr. S. A. McSpadden the branch will have the same merits as the old stand at Vinita.

STOCK MEN, ATTENTION!
There will be a regular meeting of the Cherokee Protective & Detective Stock Association held in Vinita, I. T., the second Monday of January, 1884. Important business to be transacted. All members are respectfully requested to attend. By order of the President.
JOHN A. FOREMAN, Sec'y.

\$10 Reward.
Strayed from Vinita during last payments, one small dun pony, 13 hands high, four years old, black mane and tail, black stripe along the back, and tips of ears black, no marks or brands. Last heard from at Carey's Ferry. I will pay the above reward for the return of the pony to me at Vinita.
L. P. BELL.
J. J. Hicks makes the following offer: Any person buying ten dollars worth of goods at one time and paying cash for them at Lewis, will be entitled to one guess as how many beans in one half bushel and the person guessing the closest to the number if a man, will be presented with a good suit of clothes, if a lady one velvet dress pattern worth \$15.00. Beans to be counted by a disinterested party 15th day of February next. Every ten dollars gives you one guess and a heap of goods. Try it.
